I recommend you watch this video before proceeding. Although my measurements are a bit different from Stampin' Up!'s, it will give you a good knowledge base to start from while making your card

For my card I've started with an 8 ½" x 5" piece of card stock so I can cut two bases from one sheet.

To cut the gatefold card base, position one die along each short end of the card base as shown. Hold each down on the cutting pad with a piece of washi or painter's tape (low-tac is best), lining up the little notch on the end with the arm extending down onto the card with the side of card stock. You can cut both ends at the same time with one pass through the die-cutting machine.

Instead of measuring and scoring the fold lines, simply bend the cut card ends toward each other until the cut leaves and flower meet in the center. Fold flat and crease edges with a bone folder.

Stamp leaves either directly on the Lemon Lime Twist card base or on the designer paper strips with Granny Apple Green ink.

Add the cut out blooms with SNAIL, dimensionals, or glue dots. Add rhinestones with a Take Your Pick Tool.

Stamp inside white layer as desired. Adhere inside with SNAIL. Stamp envelope too!
