Stamping directions:

Emboss Misty Moonlight front layer with Tasteful Textures Folder. Adhere to card front. Adhere designer paper strip across center of card front. Wrap twine twice around all front layers, tying in a bow on the left side of the front. Stamp greeting to center of Flowers For Every Season Memories & More card with black ink. Adhere over twine with dimensionals.

Add three In Color Enamel Dots to the lower right corner using Take Your Pick tool.

Tip: the In Color Enamel Dots sometimes will come apart from the adhesive color/bottom/sticky circle. To put them together again simply put a glue dot between the color layer and the clear dome top. Squish the glue dot with your fingers around the edges to match the size of the dot. (you can see in the picture below the farthest right dot was reassembled in this manner and needs a bit more squishing)

Adhere the Bumblebee layer inside card. Adhere the Misty Moonlight mat layer inside card. Stamp white layer with sentiment and black ink. Ink the small sunflower with Bumblebee and Just Jade Stampin' Write Markers. Breathe (huff) on the ink to re-moisten any drying ink before stamping in the lower left corner. Adhere inside card.

To add the designer paper to envelope flap, run a line of adhesive along the top long edge of designer paper, then around the remaining 3 sides of the envelope flap. Adhere designer paper to flap. Turn over flap and use the flap as your guide to trim the designer paper flush with the edges of the flap.

Stamp the front of the envelope as desired to match the card.
