Stamping Tips:

Emboss Blushing Bride front layer with Scripty 3-D folder. Wrap 7" piece of tulle around layer and secure on back with SNAIL. Adhere layer to card front with a generous amount of SNAIL. Tie 6" piece of tulle around tulle on right side into a knot. Trim ends with scissors.

Stamp bunnies on scrap paper with Crumb Cake ink before stamping on the watercolor paper. Color bunnies with Ivory Stampin' Blends marker. Color ears with Petal Pink. Add Bronze to shade bunny. Remove color from bunnies with Color Lifter.

Watercoloring with Stampin' Blends on Fluid 100 Watercolor Paper tip: The Fluid 100 watercolor paper is very absorbent, so use a light touch when you are coloring with Stampin' Blends. The paper will "suck up" the blends very quickly and it will bleed past the edges of the stamped image if you get too much ink on the paper. You can remove some of the excess with the Color lifter, but it's best to not let this happen in the first place than to have to remove it.

Color around bunnies with Light Pool Party Stampin' Blends, leaving an edge around them not colored. Color below bunnies with Light Soft Sea Foam Stampin' Blends. Go back over both colors with the Color Lifter to soften and blend. Stamp greeting with black ink. Color over bunnies with Clear Wink of Stella Glitter Brush.

Adhere bunny layer to Pool Party mat with SNAIL. Adhere to card front over ribbon with dimensionals. Stamp sentiment on inside white layer with black ink. Stamp bunnies in lower right corner with stamped-off Crumb Cake ink. Adhere layer to Pool Party mat layer with SNAIL. Adhere to Blushing Bride mat layer with SNAIL. Adhere all inside card with SNAIL.

Envelope flap: Run adhesive along the edges and top fold of the envelope flap. Adhere the DSP to the flap. Use Paper Snips to trim the DSP, using the edges of the envelope as your guide. Stamp the front of your envelope to match the card as desired.
